

Our Counselor's Corner

My name is Felicsha Green and I am the school counselor for Canton School of Arts and Sciences. As the counselor here at CSAS, I am very fortunate to have the opportunity to work closely with the wonderful staff, students and families at our school. I have been an educator for over 9 years, serving 5 years as an elementary teacher and going into my 5th year as a school counselor. I received my Bachelor of Science in Elementary Education, Master of Science in School Counseling and an Educational Specialist in Educational Leadership degree at Jackson State University.

As an educator I believe in developing and maintaining relationships with all the students at our school. My goal is to support students' academic, personal and social needs so that they may be as successful as possible in all areas of life. I look forward to working with everyone this year and encourage you to contact me whenever needed.

Mrs. Felicsha Green, Counselor
